

## Gaming Proceeds

As a non-profit group we were allowed to apply to the Alberta Gaming and Liquor Commission (AGLC) for a licence to participate in gaming activities in Alberta. The gaming proceeds are then shared with all participating charities for purposes beneficial to the community. These proceeds are must be used by the participating charities under the rules and guidelines agreed upon under the AGLC licensing. This is accomplished by submitting a PROPOSED USE OF PROCEEDS which is a list of how the proceeds will be spent. AGLC then issues a list of approved uses of proceeds.

The uses of proceeds that were approved at the time of the licensing application stage, do not have to be approved each time. These are such things as expenses in support of on-going programs. For other expenses not listed in the "Approved list of Proceed" an "Amendment to the use of proceeds" must be submitted and approved prior to the disbursement of any funds. More information and form is available at this web site: [http://www.aglc.ca/pdf/gaming/gaming\\_forms/5506.pdf](http://www.aglc.ca/pdf/gaming/gaming_forms/5506.pdf)

We welcome any ideas you may have for use of these proceeds. However they must meet the AGLC's criteria for the use of proceeds and an amendment to the use of proceeds may be required before the funds can be used. Keep this in mind when you file a written request to the executives as all this takes time. Remember to provide as much detail as possible: a breakdown all the different cost is required such as a venue and a presenter. Include an estimate of how many people would participate.

- Resume from presenter
- Presenter's fee
- Travel expenses
- Accommodations
- Facilities Fees
- Wages and salaries
- collect all receipts and invoices

If you are interested in attending a fee secession on the "Use of Gaming Proceeds" visit the web at <http://www.aglc.ca/gain/default.asp> for times and locations, then contact Norm to have your name registered
